

High-Tech Treasure Hunting

Geocaching is a high-tech treasure hunting game played throughout the world by adventure seekers equipped with GPS devices. The basic idea is to locate hidden containers, called geocaches, outdoors and then share your experiences online. Geocaching is enjoyed by people from all age groups, with a strong sense of community and support for the environment.

If you can believe it there are over 100 geocaches located within 25 miles of the town of Renfrew and even more within the County. Each geocache is given a name, local examples include: “Choo Choo in the Frew”, “On Your way to Norway”, “Restin' in Haley” and “White Lake Fever”.

There are 1,135,668 active caches and an estimated 4-5 million geocachers worldwide. For more information about geocaching and to find local geocaches visit the global website at www.geocaching.com.
